DESIGN STUDIOS

in-toto studio Northampton

## Welcome to the world of **in-toto**!

We're a different kind of kitchen specialist. Our nationwide network of studios are independently owned by committed franchisees and supported by the well-established **in-toto** brand, sharing over 30 years of experience. Every studio owner has a passion for kitchens and prides itself on giving you a local, personal service with the benefit of value, choice and peace of mind from the strength of our national company and our KBSA membership. We've earned a reputation for using first rate materials and skilled designers, giving us a proud record of excellence with many national and local awards being won, such as the KBSA Design Innovation Award and Grand Designs Award. We understand it's not all about talking the talk. We believe in listening to our customers. That's why much of our business is generated from customer recommendations. Take a look at the "Real Kitchens" pages on our website to see many of our customers' kitchens we've completed. Our German-engineered products last a lifetime, bringing quality and style to every home.

*"Our well-established kitchen brand was introduced to the UK over 30 years ago and I still get excited about the products we offer today. For me, it's not just about cabinets and cooking space – we should all be able to enjoy the time we spend at home and with the kitchen being at the heart of this, our choice for this room should be driven by how we want to feel and who we share our lives with.*

*The wide range of styles, finishes and colours allows you to choose an **in-toto** kitchen with personality as well as long-lasting quality and function.*

*I hope you enjoy discovering your new kitchen – your local **in-toto** studio would love to help you put your new kitchen at the heart of your home and help you discover the possibilities for more enjoyable living."*
