CARRARA - QZ122

About CRL Quartz

CRL Stone has developed a comprehensive range of beautiful, engineered quartz surfaces, created to meet the demands of modern living. Hard wearing and easy to care for, CRL Quartz is ideal for the kitchen and bathroom where durability and flexible design are paramount.

CRL Quartz is scratch, heat and stain resistant. Unlike natural materials such as marble, CRL Quartz never needs to be sealed. Requiring minimum maintenance to keep it looking as good as new, the non-porous surface makes cleaning simple, with soap and water or a mild detergent is all that is needed.

Offering a versatile design solution appropriate for any setting, CRL Quartz is available in a choice of over 50 colours. In thicknesses of 20mm and 30mm, the surface comes in an extra-large format slab, allowing for greater consistency in design over large spaces such as kitchen worktops.

CRL Quartz comes with a 25 year residential warranty and 10 year commercial warranty for added peace of mind. Visit crlstone.co.uk to register your surface and activate your warranty.

CRISTALLO VERDE - QZ163

Cristallo Verde

QZ163

Bringing a bohemian vibe to the modern interior Cristallo Verde is a surface defined by strong colours and strong patterning. An intricate array of organic veins and fine lines make a dramatic impact, perfect for adding instant personality and a strong industrial-inspired presence to spaces large and small.

Slab Size: 3470 x 2010 mm

Finish: Polished

Thickness: 20 mm

Cristallo Azure

QZ164

Blue is the new black in interior design, Cristallo Azure makes it extremely simple to introduce this stunning colourway into any interior. The quartz surface is not only highly durable, but the striking intensity of the colour also ensures it makes a stunning visual statement too.

Slab Size: 3470 x 2010 mm

Finish: Polished

Thickness: 20 mm

CRISTALLO AZURE - QZ164

CRISTALLO PLATINO - QZ165

Cristallo Platino

QZ165

Featuring a robust, industrial style, Cristallo Platino reflects the distinctive look of natural stone. This is a surface that is accentuated by dramatic dark grey lines and brushstrokes of browns and golds set against a lighter grey backdrop. Simple, classic design that works in harmony with an abundance of colours and materials for a look that is wonderfully individual.

Slab Size: 3470 x 2010 mm

Finish: Polished

Thickness: 20 mm

Cristallo Gris

QZ166

Cristallo Gris is a beautiful, marble-inspired surface, characterised by a sultry grey base, combined with a stone-effect patterning and subtle copper-like effects that capture the light. Modern yet with a timeless appeal, the rustic look patterning pairs excellently with metallic finishes and organic elements in the contemporary home.

Slab Size: 3470 x 2010 mm

Finish: Polished

Thickness: 20 mm

CRISTALLO GRIS - QZ166

2

The Renaissance Collection

Stella Gris (Super Honed)

QZ162

Tapping into the timeless trend for dark and sultry colours in modern interiors, Stella Gris (Super Honed) is defined by rich charcoal grey swirls that evoke the texture of natural slate. Team the dramatic quartz surface with brushed metals, textured finishes, and coarse textiles to create an organic ambience.

Slab Size: 3300 x 1650 mm
Finish: Super Honed
Thickness: 20 mm / 30 mm

Statuario Bianco

QZ135

With a distinctive grey veining on a crisp, white background, Statuario Bianco has a Statuario marble-inspired look that ensures it will be the ideal surface for any kitchen looking for a bold, striking impact.

Slab Size: 3300 x 1650 mm
Finish: Polished
Thickness: 20 mm / 30 mm

STATUARIO BIANCO - QZ135

Vicenza

QZ136

The perfect contrast to trending bold colours in interior design, Vicenza is striking to the eye with its movement of colours from soft whites and greys to dark, bold veins.

Slab Size: 3300 x 1650 mm
Finish: Polished
Thickness: 20 mm / 30 mm

VICENZA - OZI36

MONTE BIANCO - QZ132

Monte Bianco

QZ132

Giving visual interest and character to any kitchen or bathroom, Monte Bianco is a marble-effect surface that mixes on-trend shades of whites and greys. It is perfect for any style of room as it works in harmony with natural materials and colours.

Slab Size: 3300 x 1650 mm
Finish: Polished
Thickness: 20 mm / 30 mm

Montana Gris

QZ133

Bold grey veining gives Montana Gris a unique stand-out look in a style that has all the beauty of real marble with none of the maintenance hardships, for a beautiful surface that works in virtually any interior space.

Slab Size: 3300 x 1650 mm
Finish: Polished
Thickness: 20 mm / 30 mm

Finish: Polished
Thickness: 20 mm / 30 mm

CALACATTA - QZ143

Features & Advantages

Resistant to Wear & Tear

Thanks to CRL Quartz technical characteristics, this is one of the most resistant countertops on the market, ideal for use in the kitchen and bathroom.

Highly Scratch Resistant

Food can be cut directly on top of the surface without it being damaged. Even so, adapted cutting boards should be used for cutting.

Stain Resistant

CRL Quartz is not affected by products like solvents, detergents, bleach, oil, vinegar or citrus juice, provided that the stains are cleaned away within 24 hours.

Heat Resistant

It does not burn or give off smoke or toxic substances when exposed to high temperatures.

Impact Resistant

CRL Quartz has a high resistance to knocks and impacts.

Easy to Clean & Care For

No extra care or special products are needed to clean it. Stains can be removed with water or mild cleaning products.

25 Year Residential Warranty

Visit crlstone.co.uk to register your surface and activate your residential warranty.

Hygiene

Because it is a non-porous surface, the build-up of bacteria or mould is prevented, and food can be placed in direct contact with it.

10 Year Commercial Warranty

Visit crlstone.co.uk to register your surface and activate your commercial warranty.

Care & Maintenance

Routine cleaning

CRL Quartz is virtually maintenance free and can be cleaned with extreme ease.

For routine cleaning and to wipe off spills, use a damp cloth or paper towel and a small amount of mild soap or non-acidic cleaner. Once clean, rinse and dry the surface thoroughly.

Note that colours available in a honed finish are more sensitive to grease or finger-prints than polished surfaces and may require extra care during routine cleaning due to the different level of smoothness.

Scratch resistance

Quartz is one of the hardest materials in nature, which is an assurance that your CRL Quartz surface will not easily scratch or chip. However, avoid using sharp objects such as knives or screwdrivers directly on the surface. The use of a cutting board is recommended.

Heat resistance

CRL Quartz can tolerate moderately hot temperatures for short periods of time. To maintain the natural beauty of the product, do not place hot skillets or roasting pans directly onto the surface but use an insulator or trivet instead.

Stain resistance

Thanks to their non-porous properties, CRL Quartz surfaces are highly resistant to stains. However, do not allow dirt and residue such as stubborn food or gum stains to harden and remain on CRL quartz surfaces for extended period of time. In case they do, scrape away gently using a small blade or putty remover before cleaning with warm water and soap.

For stubborn or dried spills, use a non-abrasive cleaning pad combined with a small amount of mild soap or specialised stone cleaner.

Recommended stain remover

Bar Keepers Friend Power Cream

Avoid exposing CRL Quartz to chemicals and solvents, especially paint removers or furniture strippers containing trichlorethane or methylene chloride. Keep away nail polish remover, bleach or cleansers that contain bleach, bluing, permanent markers or inks. Strong abrasive and highly alkaline (outside of 5–9pH) cleansers are not recommended when cleaning CRL Quartz. Always follow the manufacturers' dilution instructions and recommendations.

If any of the substances listed above come into contact with CRL Quartz, rinse the exposed surface immediately and thoroughly with plenty of clean water.

Ceralsio
CERAMIC SURFACES

Explore our Ceralsio Collection

The Ceralsio collection has been inspired by nature itself and includes classic surfaces such as Soft White, right through to sophisticated, strong designs such as Montblanc White and Belvedere Black.

Responding to the trend for slim lines and minimalism in contemporary kitchen design, the material is available in a 6 mm thickness, ideal for flooring, wall cladding and media walls, along with 12 mm and 20 mm profiles for worktops and bathroom countertops.

The huge range of finishes in the Ceralsio collection ensure that, no matter what the situation and regardless of personal taste, there is something to suit everyone. Highly durable and simple to care for, Ceralsio can be used in virtually any area of the home.

To find out more and explore the range visit: www.crlstone.co.uk

6mm

6mm Ceralsio is both lightweight and durable making it ideal for floors and wall cladding.

12mm

12mm Ceralsio is perfect for kitchen and bathroom counter tops giving a seamless streamlined look.

20mm

20mm Ceralsio is ideal for kitchen and bathroom work surfaces in high traffic areas.

MONTBLANC WHITE - NATURAL CER412N

Explore our Inalco MDi Collection

Inalco MDi from CRL Stone is a premium surface which uses full digital technology throughout the manufacturing process for total control of the end design.

The use of 360° design ensures that the inner core and outer surface are fully integrated to ensure visual continuity between the two. Inalco MDi is made from natural minerals meaning it is 100% recyclable.

Inalco MDi Surfaces are available in 4mm, 6mm, 12mm and 20mm thicknesses, ideal for bathrooms, wet rooms, flooring, wall cladding and kitchen worktops. Available in large format to enable floor to ceiling cladding with no joint lines.

With over 30 finishes available you're sure to find the perfect finish.
