## How we work

### Stage One – The First Step

The first step is to give us a call, or pop into our showroom in Exeter, Devon, to tell us your ideas, your thoughts on styles and let us know what your budget is. We'll then arrange for one of our designers to visit you at home at your convenience, completely free of charge and under no obligation.

During our first visit we'll take detailed measurements and discuss your unique requirements and preferences. The designer will then help to evolve your ideas, to ensure your new bedroom is both functionally and aesthetically exactly as you want it. We'll also offer advice on our range of functional storage solutions which fit in the most awkward of spaces but still give you a stunning bespoke, fitted look.

Upon agreeing on the key points, an outline plan will be drawn up with a quotation. A further visit will be arranged to show you samples and illustrations of the initial concepts, design and materials if necessary.

### Stage Two – Approving the Design

When you're completely satisfied with our proposal, we'll then send you a letter of confirmation to discuss a convenient date for installation and to take an initial deposit.

### Stage Three – Installation

Our experienced and dedicated bedroom fitters will ensure that the installation takes place with as little inconvenience as possible, keeping noise, dust and interruption to a minimum. Should you prefer to arrange your own fitting, we also offer bedrooms on a 'supply only' basis.

### Stage Four – It's all yours

Your new bedroom is now all yours to enjoy!

Once we've finished, we'll provide you with a general information pack for your beautiful new room. This will include details of our 6 year warranty together with advice on how to look after your new bedroom.

However, our service doesn't stop there. We aim to provide excellent customer service throughout the design and fitting process and will work with you to ensure that your new bedroom is exactly what you want. If you have any questions, or in the unlikely event that a problem arises, give us a call and we'll be there to help you out. We always put our customers first - that's a promise.
