Live life the Mereway

Everyone is different, right?

Meet the twins.

They have a lot in common and share everything, especially their opinions on the latest looks, styles and trends.

When it comes to choosing a kitchen, both share a love for the good things in life and seek our exceptional British quality, detail and craftsmanship.

Neither of them will accept anything less than the very latest designs, tailored to their particular tastes.

There's no way these two will buy an off the shelf, run of the mill kitchen.

There is one big difference between the two though...

One lives in the town and loves everything chic, modern and contemporary. The other lives in the country and has more traditional tastes.

Both will find all the styling options they are looking for, to create their perfect kitchen at Mereway.

You too will find yours. A unique British crafted kitchen that you will enjoy for years to come, no matter where you live or whatever your tastes.

That's the beauty of the...

"Simple cooking is all about combining ingredients to create a plate of food.

Great cooking is about the seamless marriage of a variety of exciting ingredients that creates a dish that's truly unique and memorable.

I, like Mereway, believe in having a variety of ingredients to choose from. Everything from old favourites to new discoveries, from the traditional to the contemporary.

It is only when you have all these to hand, that you can then combine them in a variety of ways to create everything from the familiar to the unexpected."

...it's all about choice

My TOWN HOUSE — KITCHEN —

My kitchen is everything I hoped it would be.

It's chic, contemporary and a great place to hang around in with friends and family.

There were so many style options available on nearly every single piece, I was spoilt for choice and could raise or lower the 'chic factor' to a level I was happy with.

I now have my ideal kitchen.

As you can see opposite, my sister, with her more traditional tastes, would have created a kitchen that looked equally as stunning.

... but then it's my house, so it's my choice!

...it's all about choice

My perfect town house kitchen

My sisters more elegant option

My perfect country house kitchen

My sisters more contemporary option

My COUNTRY HOUSE KITCHEN

This is my kitchen and it's turned out exactly how I wanted it to.

It's warm, welcoming and traditional but still has all those modern bits 'n' pieces that makes it a pleasure to cook and entertain in.

Having so many style options to choose from made it all possible. I could have all those desirable features that make cooking and entertaining a pleasure but still retain the looks of a traditional kitchen.

It wouldn't be to my sisters taste - she would have created a more contemporary option but then, as she said

... it's my house, so it's my choice!

...it's all about choice

How we created the individual kitchens for both the town and country house.

It's all about selecting the preferred piece from the different style options available.

Durability

The laminate surfaces are designed to withstand the stresses & strains of daily life, due to their high resistance against scratches and impact. Compared to real timber, our worktops are less prone to fading and changes after being exposed to direct sunlight. They are incredibly easy to look after, and unlike solid wood or stone surfaces, require minimal maintenance or repair.

Stain Resistance

To remove those hard stains such as red wine and coffee, simply use a damp cloth & mild surface cleaner to easily remove in minutes.

Impact Resistance

Every now and then, items stored away in cupboards can fall onto the surfaces. Our high density worktops are designed to withstand the impact of such items.

Heat Resistance

UrbanTop worktops have been rigorously tested against surface temperatures of up to 180 degrees and are designed to cope with the daily demands of a busy kitchen. We do however recommend the use of heat deflector plates above all built under ovens and dishwashers to protect the underside of the worktop surface.

Lightfastness

Unlike real timber, our laminate worktops are significantly less prone to fading and changes in colour caused from exposure to sun light.

Butchers Block

To create an authentic 'real wood' look UrbanTop have developed an 'End Grain' effect edging we call Butchers Block that is applied to the worktops at both ends giving the impression of real timber.

5 Year Guarantee

We're so confident that you won't be disappointed with the quality of our worktops that they come with a 5 year guarantee!
